**Wireless 300 Mbps Router—11n
Air:Link 59300**

Jensen Air:Link™ 59300 is a wireless Broadband Router providing speeds up to 300* Mbps!

This is the perfect solution for wireless networks at home, in the office or at school.

Today's users of wireless networks are demanding higher speed, longer range and reliability. Jensen Air:Link™ 59300 provides all this in addition to ensure security in the best way possible.

LongRange-11n

A full range of products based on 802.11n draft 2.0 and MIMO technology. With this combination you can cover a wide area with HighSpeed and secured wireless network. LongRange is compatible with 802.11b/g products.

QoS - Quality of Service

Quality of service provides an efficient way for computers on the network to share the Internet bandwidth with a promised quality of Internet service. With the QoS function, you can limit the maximum bandwidth or give a guaranteed bandwidth for a specific computer, to avoid said displeasing result from happening.

WPS via "Push-button"

Wi-Fi Protected Setup (WPS) is the easiest way to build secured connection between wireless network clients and this wireless router.
